### S&L TRACK

The 130cm long S&L track allows the back roller arms massage from the head to the buttocks; it has greatly increased the reachable parts of the back 3D mechanism. The back track design is based on human bodycurve which make shoulder and waist massage more in place.

### NEW 3D PATENT MECHANISM

3D Mechanism arms extends 8cm, can effectively improve the comfort of massage. The 3D Mechanism has a variety of massage methods such as kneading, tapping, Knocking, shiatsu, tapping and combination. You can adjust massage methods, body part, intensity per your preference.

### BODY SENSING

The back roller has equipped with sensors that can detect the user's height, and adjust the massage length accordingly.

### PATENT VIBRATING BALLS

The massage ball were equipped with high-frequency vibration motors inside, Massage the deep layer muscles to help relieve muscle soreness and fatigue effectively.

### REMOTE CONTROLLER

Our remote controller is super easy to know and operate.

### AIGBAG MASSAGE

A strong 25L air pump work for hip and calf parts airbags.
