

Customisable massage intensity

Customised to individual leg size and intensity preference, the adjustable massage width feature makes it possible for all to enjoy the world's 1st Tui-Na leg massager.

Manual massage option

The versatile eFootio offers you the flexibility of personalizing your massage just the way you like it. Separate or combine the 'Glide & Knead' manual massage programme with the 'Warmth Therapy' and 'Vibration' massage options.

Adjustable angle for personalised

Enjoy at any angle you want by simply adjusting the lock-lever (for angle position), conveniently located within your reach.

Removable and washable cover for easy maintenance

The pair of fabric covers on the eFootio is detachable. Simply remove them from the eFootio for washing when needed.

Detachable Podotherca

HCI - The most comprehensive and advanced leg massaged for your calves, ankles and feet.

1. The world's 1st Tui-Na massage for calves

Delivered through an innovative Calf-Gliding massage system, the firm strokes of the Tui-Na provides enjoyable deep tissue massage to relieve aches and strains. The push and pull technique of the Tui-Na also improves circulation to the legs to keep them healthy. Most significantly, this signature massage brings good health and well-being, by stimulating key meridian-points along the legs.

2. Wrap-around power squeeze massage

Relieve leg soreness and strains with the comfortably intense squeeze-and-knead massaging action. The wrap-around power squeeze massage cleverly hugs the varied feet sizes of different users to thoroughly loosen tight muscles.

3. Roller reflexology massage

Activating the vital reflex points on soles of your feet. It is programmed to complement the squeeze massage for an indulgent and health-yielding reflexology massage.

4. Vibration massage

Stimulates blood circulation to encourage higher efficiency of the body's natural detoxification process. Refresh, recharge and feel energised, especially after a long day.

5. Warmth therapy

Promotes a smoother flow of blood, oxygen and nutrients to your legs. The warmth not only melts away tensions and sores, it also soothes and tenderises stiff muscles to alleviate lactic acid build-up.
