### S&L TRACK

The 100cm long S&L track allows the back roller arms massage from the head to the buttocks; it has greatly increased the reachable parts of the back 3D mechanism. The back track design is based on human bodycurve which make shoulder and waist massage more in place.

### NEW 4D MECHANISM

4D Mechanism arms extends 8cm, can effectively improve the comfort of massage. 4D intelligent movement with brushless vibration motor, the highest vibration frequency is about 8000 rpm.

### BODY SENSING

The back roller has equipped with sensors that can detect the user's height, and adjust the massage length accordingly.

### SOLE ROLLER MASSAGE

Equipped with 3 rows of roller in the sole area, offer deep tissue massage, help improving the circulation and releasing stress.

### REMOTE CONTROLLER

Our remote controller is super easy to know and operate.

### AIGBAG MASSAGE

A strong 25L air pump work for hip and calf parts airbags.
