

THERE IS SOMETHING FOR EVERYONE

Depending on various age groups, occupation and hobbies, there are specific areas of the body which are more prone to strains and tense muscles, Massage promotes physiotherapeutic effects and also stimulates better blood circulation, higher metabolism, emotional relaxation and mental rejuvenation. The complete HCI Massage Chair Series is comprehensive and functional for sharing with the whole family, both young and old!

01 CONVENIENCE FOR THE WORKING CLASS

All stressed out with no time to schedule in an appointment for a massage? You can fit in a rejuvenating massage session anytime in the convenience of your home.

02 BEAUTY CARE FOR THE LADIES

A massage can help improve body posture, eliminate water retention and aid in detoxification.

03 THERAPEUTIC FOR THE ELDERLY

Mimicking physical motion, the elderly can reap the physiological benefits from a massage to make up for a lack of regular exercise without needing to step out of the house.

04 HEALTH INVESTMENT FOR THE YOUTHS

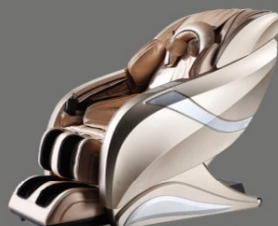

Youths can benefit from the physiotherapeutic effects of a massage that helps reduce likelihood of a muscle injury after exercise, decrease soreness while also relieving mental stress.

05 RECOVERY FOR THE ATHLETES

Massage therapy promotes greater flexibility, muscle suppleness and blood circulation. It also aids to stretch the muscles for a shorter recovery time.

Japanese Therapy

A combination of soft and hard touch to the deep of core muscles.

Comprehensive Massage from Head-to-Toe

1. uShape Massage on head.
2. Intense airbag massage on shoulder & arms.
3. Soothing warmth back, Seat & calf.
4. Revitalizing Massage for hands & feet.
5. Relieve tension in thighs & hips.
6. Rejuvenate calves, ankles and feet.

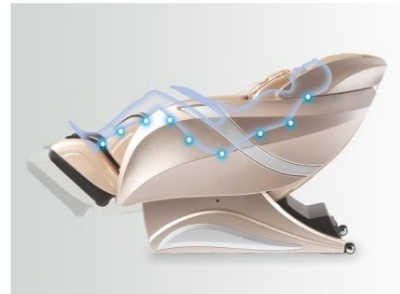

Zero Gravity

From the research of Astronauts A zero gravity position can help relieving stress on the back spine and allows for a deeper, more intense massage experience; plus, it promotes circulation in the legs and reduces swelling.

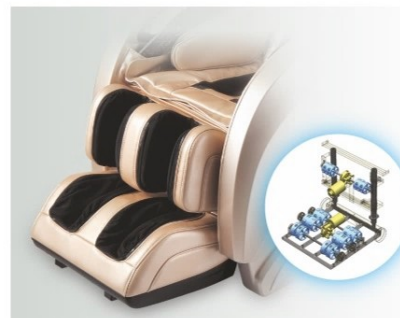

Air Massage And Heating

Equipped with 107 cells of air bags, offering full body air compression massage, with adjustable intensity and separated on/off option for each area. Heating pads are located under the back, seat and calf area, it helps users to keep warm and releases fatigue.

Body Sensing

The back roller and leg massager has equipped with sensors to understand the requirement of a particular body in terms of Focus, Pressure, Intensity and Time, the Sensors can detect the user's height, and adjust the massage length accordingly.

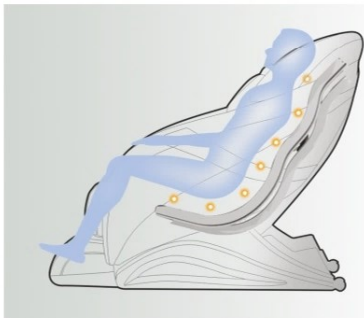

Calf, sole roller massage

The patented unique Calf Rollers with kneading and Squeezing therapy to pamper the deep muscles of Calvs and Ankle are Equipped with 4 rows of roller in the sole and calf area, offer deep tissue massage, help improving the circulation and releasing stress.

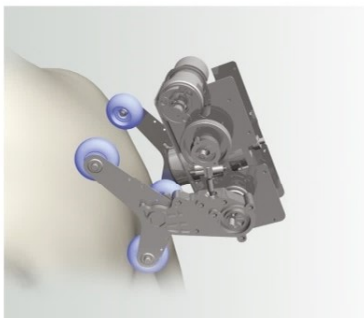

Immersive Audio System for deeper mental relaxation

The ideal positioning of speaker within an intimate chamber creates an immersive audio experience with enriched timber and delightful virtual audio effects. Retreat into the privacy of your intimate space; calm your mind with your favorite music to achieve a deeper state of relaxation for your mind and body.

S&L Long track Massage

The world's longest 130cm S&L back track allows the back roller mechanism moves from head to buttocks, whereby expanded the core massage area greatly. The curve is ergonomically designed, which makes the neck and waist massage more powerful than ever.

4D Smart Back Mechanism

All the massage balls of the back roller mechanism are made of silica gel material, and the mechanism has equipped with multi sensors, thus it can offer a more gentle and accurate back massage; It has 6 massage methods, combination, tapping, knocking, rolling, kneading and shiatsu; The speed and width of the mechanism can be adjusted per user's preference. The rollers can rotate 360° in both horizontal and vertical direction.
